

SULEYMAN BEYAN

COMPUTER SCIENCE PROFESSIONAL & TECHNICAL SPECIALIST

Phone: +251914198306
Email: waliftech25@gmail.com
Location: Robe, Bale, Ethiopia

PROFESSIONAL SUMMARY

Highly versatile and detail-oriented Computer Science professional with over 7 years of proven technical experience in high-level electronics diagnostics and mobile hardware/software maintenance. Combines deep engineering skills with a robust 5+ year track record in residential electrical installations and industrial circuit wiring. Complemented by an advanced multi-disciplinary background in Islamic Studies (Sharia, Arabic Linguistics, and Theology), showcasing exceptional analytical capacities, ethical standards, and an unyielding passion for continuous self-development and rapid technological adaptation.

CORE COMPETENCIES

Hardware & Software Engineering:	Mobile OS Flashing, Component soldering, Firmware configurations, Advanced System Diagnostics.
Electrical Systems:	Domestic Installation, Schematic Blueprint Reading, Home Circuit Wiring, Safety Compliance.
Computer Science Core:	Systems Architecture, IT Support, Database Management Foundations, Tech Troubleshooting.
Soft Skills & Attributes:	Critical Problem-Solving, Dynamic Adaptability, Strong Professional Ethics, Rapid Self-Education.

PROFESSIONAL EXPERIENCE

Senior Mobile Hardware & Software Specialist	2019 – Present
- Lead complicated component-level maintenance, chip troubleshooting, and firmware restoration for advanced smartphones. - Resolved OS-level architecture conflicts, bricked devices, data recovery configurations, and circuit boards.	
Residential Electrical Installation & Electronics Technician	2021 – Present
- Planned, executed, and certified full-scale modern home electrical installation layouts, lighting systems, and distribution setups. - Performed root-cause fault isolation in complex household consumer appliances and main distribution panels safely.	

EDUCATION & ADVANCED STUDIES

Harambee University (Robe Campus)	Ongoing / In-Progress
Bachelor of Science in Computer Science — Expanding core skills in systems, logic, and computational theory.	
Madrasaa Salafiyyaa Islamic School (Robe, Bale)	Completed to Grade 7
Built fundamental foundations in community leadership, historical narratives, and foundational ethics.	
Advanced Islamic Studies (Sharia, Linguistics & Theology Curriculum)	
Hadith Discipline: Deep textual mastery of <i>Arba'in an-Nawawi</i>, <i>Bulugh al-Maram</i>, and <i>Riyadus Salihin</i>. Arabic Linguistics: Comprehensive proficiency in structural <i>Nahwu</i> (Grammar) and <i>Sarfi</i> (Morphology) systems.	

- **Theology (Aqeedah):** Analytical studies of *Kitab ut-Tawheed*, *Sullam ul-Usuul*, *Kuz Aqeedataka*, *Al-Aqeedah At-Tahawiyyah*, and *Al-Aqeedah Al-Wasitiyyah*.
- **Principles of Jurisprudence (Usul al-Fiqh):** Critical evaluation methodologies via texts including *Al-Waraqat* and advanced *Usulul Fiqh* frameworks.
